14th March 1928]

Appendix I.

[Vide answer to question No. 1728 asked by Mr. A. B. Shetty at the meeting of the Legislative Council held on the 14th March 1928, page 86 supra.]

G.O. Mis. No. 328, Law (Education), dated 17th February 1928.

Read—the following paper :—

From the Director of Public Instruction, R.C. No. 2266-D/27, dated 5th January 1928.

Order—Mis. No. 328, *Law (Education), dated 17th February* 1928.

In his letter read above, the Director of Public Instruction raises the following questions :—

(1) Whether the appointment of an L.M.P. in a secondary school as physical director and medical inspector is in order ; and

(2) whether in case an L.M.P. entertained on the staff of a secondary school for teaching a technical subject like physiology discharges duties connected with the medical inspection of pupils, the teacher's pay may be reckoned for purposes of teaching grant, and if so, on what basis.

2. In regard to the first query, the Government observe that there is no objection to the appointment of an L.M.P. as a full-time member of the staff for the purposes indicated, provided the L.M.P. holds a physical training instructor's certificate, or his aptitude for undertaking the duties of physical director is certified to by the Advisor to Government on physical education.

The question of grant-in-aid when the L.M.P. conducts medical inspection of pupils in addition to the delivering of lectures on physiology and first aid will depend on the time devoted by the teacher for discharging these functions. Ordinarily conduct of medical inspection coupled with the teaching of physiology may not give full-time work to an assistant. In such cases it is open to the Director of Public Instruction to make a suitable deduction in the salary paid to the assistant while assessing the teaching grant to the institution.

(By order of the Government, Ministry of Education and Local Self-Government)

P. Sitaramayya,
Secretary to Government.

To the Director of Public Instruction.
,, Local Self-Government Department.
